

BRONZE LECTURES ONLINE 2021

The Bronze Lectures will help you with the theory exam for your license. So if you are in flying training, pre or post solo, or just interested and want to brush up your knowledge you will be very welcome. If you plan to attend please email me and I will give you access to the online course material and the zoom link.

Re - Bronze Lectures

All the classes will be held on Zoom so if you haven't used it before download the Zoom client, ideally on a laptop or desktop. A phone is just a bit too small.

Tuesday 7 to 9pm		
1	12 Jan	Air Law & ATC + Human Performance
2	19 Jan	Meteorology Part 1
3	26 Jan	Meteorology Part 2
4	2 Feb	Communications + Operational Procedures
5	9 Feb	Principles of Flight
6	16 Feb	Flight Planning + Aircraft General Knowledge
7	23 Feb	Navigation part 1
8	2 Mar	Navigation part 2
9	9 Mar	Revision & Exam practice
10	16 Mar	Multiple Choice Exam

It would be worth buying one of the standard text books, Bronze and Beyond or similar. You'll need an old airspace map for the Navigation also a navigation scale rule, protractor and map pens. All of this equipment is available to buy from the office and we have some old maps you can borrow.

Any questions or concerns send me an email
